AT THE GOVERNMENT HOUSE AT OTTAWA

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

Whereas the Minister of Indian Affairs and Northern Development reports as follows:

That in or about the year 1800, a group of Muncey Indians from the State of New York migrated to Canada to avoid persecution for their loyalty to the British Crown.

That at the request of the Chippewas of the Thames Band, part of this group went to reside among them on the lands owned by the Chippewas bordering on the Thames River.

That in or about the year 1840 the Chippewas of the Thames are purported to have granted to the Munceys of the Thames a clearly defined tract of land containing 1,000 acres, more or less, for their use and benefit. No documentary evidence of this grant can be found, however mention is made of this fact in the preamble to the surrender being submitted herewith.

- 2 -

That by Royal Proclamation of November 8, 1850, Caradoc Indian Reserve No. 42 was officially set apart as a reserve for the use and benefit of the Chippewas of the Thames Band, no mention being made of the 1,000 acres granted by that band to the Muncey Band in 1840.

That subsequent to the year 1850 the Muncceys of the Thames increased in population and began occupying land on the reserve other than the original 1,000 acre tract.

That by the year 1880 the Muncceys were occupying some 2,051 acres in excess of the original 1,000 acres.

That the Chippewas of the Thames Band disputed this occupation by the Muncceys of the lands in excess of the original grant.

That on June 1, 1896, a settlement was reached whereby the Chippewas of the Thames agreed to accept the return of 1,010 acres on failure of Munccey heirs and the sum of \$17,640. as compensation for the remaining 1,041 acres.

That on the 6th day of May, 1909 the Chippewas of the Thames Band, at a meeting called for the purpose of considering the final settlement of the dispute between the Muncceys and themselves with respect to the 612 acres of land which, at that date, had not reverted to them in accordance with the 1896 agreement, resolved to accept in lieu thereof the sum of \$10,000.

...3

That on the second day of November, 1910 the Chief and 20 Headmen of the Chippewa Band met and executed a formal surrender of 562 acres, 50 acres having reverted to the Chippewas between the 6th day of May, 1909 and the 2nd day of November, 1910, and of the 1,041 acres which were purported to have been surrendered on the first day of June, 1896, unto His Majesty the King, His Heirs and Successors forever in trust for the Munceys of the Thames Band.

That Schedule "A" annexed hereto correctly represents the various lots, parcels or tracts of land comprising the 1,041 acres purportedly surrendered on the first day of June, 1896.

That Schedule "B" accurately and correctly describes the lots, parcels or tracts of land comprising the 562 acres surrendered on the second day of November, 1910.

That the lots or parcels of land comprising the original 1,000 acres granted to the Munceys by the Chippewas in 1840 are shown as outlined in red on a plan of Caradoc Indian Reserve No. 42 attached hereto as Schedule "C".

That the foregoing surrender was never submitted to the Privy Council for formal acceptance, as required by the 1906 Indian Act.

That the Affidavits of the Chief and some of the Headmen of the Chippewas of the Thames Band and that of Mr. J.C. Ramsden, appointed by the Superintendent General to represent him at the surrender meeting, cannot now be located.

That such Affidavits are required to accompany the surrender in accordance with Section 49 of the 1906 Indian Act.

That no surrender documents were obtained with regard to the 1896 settlement, the surrender presently placed before the Governor in Council being intended to confirm the surrender of 1,041 acres on the first day of June, 1896 to His Majesty the King in trust for the Muncey of the Thames Band.

That over the years Caradoc Indian Reserve No. 42 has been administered as if the Chippewas and the Munceys were in fact joint owners according to the portions of land as set out in the 1910 surrender as belonging to the Munceys. Prior thereto the Governor in Council accepted surrenders jointly from the Chippewas and Munceys and in two instances separately with respect to lands required for long term leases.

That since 1840 the Chippewas have never disputed the right of the Munceys to occupy the original 1,000 acres which were granted to them and since 1910 the Chippewas have not disputed the Munceys' right to occupy the additional 1,603 acres of land described in the surrender document.

That in 1962 and again in 1965 referendums were held on a proposal to amalgamate the bands. In both instances the Munceys were strongly in favour of such action and the Chippewas were strongly opposed.

That recent field reports indicate that it would not now be possible to obtain from the Chippewas of the Thames a new surrender of the lands occupied by the Munceys and that at this time the possibility of obtaining their ratification of the 1910 surrender is remote.

- 4 -

That the members of the Munceys of the Thames Band are becoming increasingly concerned over their tenure of the lands which they have used and occupied with permission of the Chippewas for some 167 years.

That the best possible evidence in support of the surrender that can now be produced is Mr. Ramsden's letter of November 17, 1910, reporting to Mr. J.D. McLean, Secretary, Department of Indian Affairs, on the distribution of monies and forwarding the surrender document. In this letter Mr. Ramsden indicates that the Chief of the Chippewas and the Chief of the Munceys were both satisfied with the settlement. A copy of this letter is attached hereto as Exhibit "A". ✓

That although the necessary supporting Affidavits cannot now be produced, in view of the surrounding circumstances, supported by the best possible evidence now available, the Minister of Indian Affairs and Northern Development recommends the acceptance of the surrender and the setting apart for the use and benefit of the Munceys of the Thames Band of Indians.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Indian Affairs and Northern Development, pursuant to the Indian Act, is pleased hereby to accept the surrender of 1910 and to set apart for the use and benefit of the Munceys of the Thames Band of Indians, as Muncey Indian Reserve No. 1, the lands described in Schedules "A" and "B" hereto and the 1,000 acre tract as shown outlined on the plan attached hereto as Schedule "C" comprising in all some 2,603 acres, more or less.

The terms and conditions under which the incentive may be paid by the Government of Canada under the Municipal Winter Works Incentive Program towards direct payroll costs incurred on winter works projects are as follows:-

1. (1) The Government of Canada, subject to the approval of each winter works project by the provincial government and acceptance of it by the Government of Canada, will reimburse each municipality one half of the direct payroll costs of the municipality or its contractors or sub-contractors incurred on site on winter works projects during a period of five consecutive months selected by the provincial government to apply throughout the province, either November 1, 1967 to March 31, 1968 or December 1, 1967 to April 30, 1968.
- (2) Notwithstanding subsection (1), in the case of municipalities in "designated areas" within the meaning of the expression in the Department of Industry Act, the winter incentive will be sixty per cent of direct payroll costs referred to in subsection (1).
2. (1) Winter works projects for the purpose of this program shall include any capital undertaking of a municipality, including renovation projects so major as to be comparable to an entirely new undertaking, except work on educational institutions and their grounds, hospitals and hospital grounds, subway transportation systems and municipally-owned buildings to be used for industrial or business purposes under private auspices, it being provided with regard to construction of municipal buildings that the federal incentive payment as related to the 1967-68 program shall not exceed \$100,000 on each new structure. No project that consists solely of brush cutting, creek clearing or land clearing will be considered. Such activities may be included in a project if they constitute a necessary minor part of a project which is completed during the term of the program or within the following 12 months, it being understood that the federal contribution toward such brush cutting, creek clearing or land clearing will be paid only when the entire capital project has been completed in accordance with the submission.

(2) Winter works projects shall be designed to create additional employment during the period of the program and shall be undertakings which would not normally be carried out at this season of the year in the absence of the program.

(3) Projects under this program shall not include work in connection with or in respect of any lands or premises acquired by a municipality from an educational institution or authority by lease, licence or otherwise.

3. Where the words "direct payroll costs" occur herein they shall be deemed to include direct labour costs, employers' contributions for unemployment insurance, pension plans, workmen's compensation, annual vacations, and such fringe benefit expenditures as form part of an agreement or arrangement which an employer has with his employees.

4. Persons employed on an accepted project must at the time of hiring be persons who were unemployed or would be unemployed in the absence of special winter works projects.

5. The hiring of workers under this program shall be made without discrimination against or favour for any persons with respect to racial origin, religious views or political affiliation.

6. The facilities of the Manpower Division of the Department of Manpower and Immigration where available will be used in hiring workers to be employed on accepted projects.

7. No payment to a regular or year-round employee of a municipality shall be included in the direct payroll costs incurred on accepted winter works projects.

8. Reliance will be placed on the provincial government to ensure that going wage rates will apply on accepted projects and that hours of work will not exceed a reasonable maximum per week. Overtime work, except in emergencies, shall be excluded.

9. Wherever possible, materials of Canadian manufacture shall be used on accepted projects.
10. Where a province under its own laws carries out works in a rural municipality that are of a nature normally considered to be a municipal function, such works may be included for the purposes of this program, provided that all other requirements have been met.
11. Projects to which the Government of Canada is contributing through financial grants under other agreements or arrangements will not come within the scope of this program. It is provided, however, that projects for which loans are obtained under Part VII of the National Housing Act will not be disqualified by reason of any forgiveness feature from receiving a contribution from the Government of Canada under this program.
12. The federal incentive on accepted projects carried out within the prescribed period will apply from the date of commencement of work on or after the first day of the period of the program in the province or from the date of acceptance of the project by the Government of Canada, whichever is later.
13. In addition to exercising any usual functions in authorizing municipal projects, the provincial government will be responsible for approving projects, proposed by municipalities, which come within the program.
14. Claims for incentive payments by the Government of Canada will be audited by the provincial auditor, or an auditor designated by him.
15. Audited claims will be submitted to the Department of Manpower and Immigration after certification by the appropriate provincial minister or by a person designated by him. This certification will be to the effect that the costs have been incurred on winter works projects which meet the conditions of the program as communicated to the provincial government.

16. Notwithstanding the aforementioned terms under which the incentive will be paid, the province may submit, and the federal government may accept for payment interim claims covering the federal share of up to eighty per cent of actual payroll costs incurred on any project accepted by the Government of Canada, provided that such project does not include such activities as brush cutting, creek clearing or land clearing. Interim claims are to be subject to the province's submitting a final statement audited and certified in accordance with the conditions of paragraphs 14 and 15 above.
17. The provinces will permit access by authorized officials of Canada at all convenient times to records, documents and files of the province and its municipalities directly or indirectly relating to accepted projects as may be deemed necessary for the audit of costs claimed under this program.
18. The provincial government will provide such additional information as may be required from time to time by the Minister of Manpower and Immigration.
19. The terms and conditions of this program shall equally apply to projects undertaken:-

SCHEDULE

Name: CORPORATION OF THE TOWN OF GANDER

Site: Gander, Newfoundland

Explanation: By Agreement No. 54437 effective January 1, 1955 authorized by Order-in-Council P.C. 1955-19/1797 dated December 2, 1955, the Corporation paid the Department \$50,000 per year for the supply of water and sewage disposal services. The charge was based on \$10 per person per year for a population of 5,000. The Agreement was further amended effective May 1, 1963 by authority of P.C. 1965-47/472 dated March 19, 1965 to increase the annual charges from \$50,000 to \$65,000 based on an increase in population from 5,000 to 6,500.

In July, 1966 the town installed its own sewage disposal plant. An amendment to the agreement, at a date to be determined by the Minister, is necessary to delete a portion of the annual charges relating to sewage disposal services. The town has offered to pay \$50,000 per annum towards the cost of operating the water system. A cost analysis indicates this offer to be an equitable payment for the supply of water to the town.

Prior to cessation, this company manufactured and installed aluminum windows and screens. Financing arrangements, allowance for cost of installation and other conditions peculiar to the business make the accounting for sales tax more complicated than usual, with the result that audits to establish the firm's liability required estimation and repeated revision.

During 1965, the company endeavoured to arrange a proposal with creditors under the Bankruptcy Act but those attempts encountered unexpected difficulties and bankruptcy seemed unavoidable. The financial situation was seriously complicated and the only asset of the company rested in the fact that a parent company in guaranteeing some of the liabilities of National Window Co. Ltd., had put up as security a property supposedly worth one million dollars. The Department had a claim for sales tax and penalties of a total of \$105,351.13.

While the supposed value of the property mentioned appeared to guarantee payment of this Department's claim when the building was sold, the value of the property deteriorated rapidly to a point where settlement of secured claims and preferred claims could not be assured and no dividend would be allowable for ordinary creditors. The situation became extremely sensitive because ordinary creditors became indisposed to agree to the trustee's proposal that the property be sold for the price available, which, as stated, would leave no dividend for ordinary creditors. On the other hand, provisions of a mortgage held by a secured creditor would allow that creditor, on expiration of a fixed delay, to merely take possession of the property as in satisfaction of the mortgage, without the need to account to other creditors for any surplus value which might result.

Careful examination and prolonged investigation of the points involved made it apparent to this Department that a compromise would be necessary on the part of all concerned and the conclusion reached was that to secure the approbation of the ordinary creditors, some small dividend should be made available for the unsecured claims. Final result of the calculations is that the trustee, Clarkson, Gordon & Co., was given to understand that this Department would recommend acceptance of a dividend of \$60,000.00. There has been received a cheque for \$58,800.00 representing the agreed dividend less the levy under the Bankruptcy Act.

In addition to the amount received through the trustee, the Department has obtained payment, by the Royal Bank of Canada, of the sum of \$2,063.92 through utilization of Section 50 Subsection 9 of the Excise Tax Act.

There is being credited to the account, therefore, a total of \$60,863.92 with the effect that there remains outstanding a total of \$44,487.21.

The nature and circumstances of this Department's claim for sales tax, the bankruptcy of the company, the peculiarly complicated financial conditions attendant on administration of the bankruptcy by Clarkson Gordon & Co., are considered to be ample justification for approval of the arrangement made and remission of the remainder of tax and penalty outstanding is recommended.

Nelson Lumber Company Ltd.,
Edmonton, Alberta. \$24,109.75 Tax \$11,820.64 Penalty.

In large part this case represents the same type of difficulty encountered in connection with the sales tax accounting of many firms in the lumber industry throughout Canada following the 1963 budget. The allowance of discounts, determination of cost, identification of lumber jobbed as against lumber further processed, misunderstanding of published information and Departmental directives which could not in their preparation envisage all the varying conditions of operation, have led to the establishment of substantial assessments, partially estimated and often disputed.

In the case of Nelson Lumber Co. Ltd., the situation was further complicated by the activities of the company in the area of the manufacture of prefabricated homes.

During 1965, audits of the records of Nelson Lumber Co. Ltd., resulted in a tentative assessment of \$27,623.82. The firm did not accept the assessment and refusal to pay caused this Department to refer the case to the Department of Justice. An information was filed in the Exchequer Court of Canada but the firm continued to dispute not only the assessment but liability for some aspects of taxation on current operations, there being involved determination of the taxable portions of prefabricated homes, which, under the Excise Tax Act, had become exempt. Further audit to April 30, 1967, showed a total of tax outstanding of \$61,187.66. The company has paid \$661.21.

Recently, Nelson Lumber Co. Ltd., proposed payment of \$30,000.00 as in full satisfaction of liability for tax and penalty to April 30, 1967. Re-examination of the circumstances of the claim in this Department, makes it apparent that there would be considerable difficulty in maintaining the Department's claim before the Court and it is proposed that the offer of payment be accepted. The Department of Justice will discontinue the action following adjustment of the account.

While this case was being disputed, the Department had taken advantage of approved counter-claims of Nelson Lumber Co. Ltd., and applied to the account an amount of \$6,416.70. It is agreed that this reduction of the Department's claim should be recognized and the consequence is that there remains for remission tax of \$24,109.75 and penalty of \$11,820.64.

Eastern Wood Products Co. Ltd.,
St. Anthony, N.B.

\$1,678.09 Tax \$2,034.55 Penalty

This case has reference to sales tax on the manufacture and sale of lumber during 1963. Based on an estimate of conditions and practices in the lumber and related industries, it seemed equitable to take into consideration that some taxpayers who are essentially retailers or wholesalers could, in attempting to give complete service to their customers, be classed by the Department as manufacturers for purposes of the Excise Tax Act. Because of this, discounts of 20% or 36%, depending on the circumstances of sale, were authorized. This authority remained in effect until May 1, 1964. The cancellation was made public by a circular issued during April, 1964, and given wide circulation. However, the terminology did not have uniform application throughout the industry with the result that some firms, not recognizing their classification as manufacturers, continued to allow the aforementioned discounts with a resultant underpayment of tax to the Department.

The Department recognized that hardship was caused through this misunderstanding. A circular letter was issued during July, 1964, in an attempt to clarify the situation. In general, the letter had the desired effect. However, differences in methods of operations of building materials businesses caused the misunderstanding to persist in some instances.

The Department has endeavoured to examine each case where underpayment of tax has occurred because of misuse of the discounts. While several cases have been referred to the Department of Justice for legal proceedings, this case justifies partial remission, as financial hardship could be caused by insistence on payment in full. Furthermore, it could be established that the taxpayer was misinformed and had done everything possible to establish his true liability.

The assessment in this instance was for \$9,178.09, and a sum of \$7,500.00 was received and taken to account.

Mr. D. F. Bowie,
President and General Manager,
Canadian Overseas Telecommunication
Corporation,
625 Belmont Street,
Montreal 3, P. Q.

Dear Mr. Bowie,

Mill Village Earth Station,
COTC-DOT Agreement.

This letter sets forth the arrangements covering the use of the land, buildings and equipment of the Communications Satellite Experimental Earth Station located in the vicinity of Mill Village, Nova Scotia. The total complex, including land, buildings and equipment will hereinafter be referred to as "the Station"; the land alone will be referred to as "the Site".

It is acknowledged that the Department of Transport (DOT) has erected the Station which has been adapted to permit its use with communications satellites known internationally as INTELSAT I and INTELSAT II. On behalf of the Government of Canada, Canadian Overseas Telecommunication Corporation (COTC) was designated as the Canadian communications entity to sign the Special Agreement provided for under the Agreement Establishing Interim Arrangements for a Global Commercial Communications Satellite System and, as a signatory is required, inter alia, to build earth stations meeting the criteria which the ICSC may adopt. DOT has, as a member of the NASA earth station committee, agreed to participate in experimental programs with satellites which are referred to and generally known as the Advanced Technology Satellites, and therefore has a continuing experimental commitment.

As an interim measure COTC may use the Station as constructed and as currently modified until such time as a Communications Satellite Commercial Earth Station (hereinafter referred to as "the Commercial Station") has been erected by the Corporation and becomes operational on the Site. Designated officials of DOT shall be allowed to inspect the Station at any reasonable time, however, COTC shall be notified prior to any such visits.

DOT may, by mutual arrangement with COTC, use the Station for experimental programs, subject always to commercial requirements taking precedence over experiments.

[Handwritten signature]

COTC shall be responsible for the full operation and maintenance of the Station and the expenses related thereto other than interest charges and depreciation, effective September 1, 1966 and until the Commercial Station becomes operational. A nominal rental of one dollar (\$1.00) per annum is to be paid to COTC by DOT, effective upon the commencement of operation of the Commercial Station, for operating services performed by COTC.

A nominal rental of one dollar (\$1.00) per annum is to be paid to DOT by COTC during the term of this agreement for the use of the Site.

COTC may at its own expense, after prior approval of DOT, modify and/or add to the equipment at the Station from time to time to meet commercial needs.

With the objective of doing such things as may become necessary to provide for expanding telecommunications requirements, COTC may erect additional structures, such as antennae, additions to buildings, etc., on the Site, provided always that such are located within the limits of the Site, as indicated on the attached plot plan of the Site. The locations of all new structures and of all additions to existing structures are to be clearly defined with respect to the existing main control building shown on the plot plan. All proposed additions by COTC shall be coordinated with DOT and will be carried out at COTC expense.

By mutual agreement between DOT and COTC, improvements to the physical plant, e.g. water supply, for the Station may be charged to the DOT account.

Until the erection of the Commercial Station, COTC shall be liable for appropriate payments in lieu of taxes levied by the municipality. Thereafter such payments shall be made in agreed proportions by DOT and COTC.

COTC shall be responsible for the security and safe-keeping of the Station. The cost of any necessary fencing shall, however, be shared in agreed proportions between DOT and COTC.

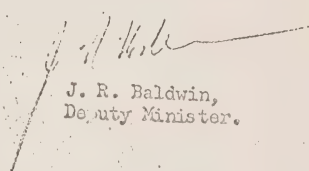

The initial supply of capital spare parts as already provided, together with a limited number of operational spares for the Station, as per inventory on September 1, 1966, shall be supplied at DOT expense by DOT, but all additional spare parts shall be furnished by COTC at COTC expense until the Commercial Station is in operation. Upon the commencement of operation of the Commercial Station, the number of spares on inventory for the Station shall not be less than the number as per inventory on September 1, 1966.

Supplementary arrangements between COTC and DOT may be made from time to time as required for carrying out the purposes of provisions of this agreement. An exchange of letters, representing the mutual consent of COTC and DOT, shall under most circumstances be sufficient to add to or delete from this agreement.

Two copies of this letter are being forwarded to you. Your reply indicating acceptance of the terms outlined herein, together with one copy of this letter, will form the agreement covering the use of the Station. This agreement shall have effect as from September 1, 1966, and remain in effect until 31st March 1982, and thereafter for such additional periods as may be agreed upon by DOT and COTC. Either party may propose the termination of this agreement at any time, giving eighteen months advance notice in writing of its intent. The mutual consent of both parties is required, however, for termination of this agreement.

Yours sincerely,

J. R. Baldwin,
Deputy Minister.

That by Order in Council P.C. 1965-1298 dated July 14, 1965, approval was given to an agreement entered into by exchange of letters between the Prime Minister and the Premier of Newfoundland dated May 25, 1965, and June 2, 1965, respectively, relating to financial assistance for provincial programs for Indians and Eskimos in Labrador other than medical and hospital costs;

My dear Premier,

With reference to your letter of the 30th of August, 1967, I am pleased to be able to tell you that the federal Cabinet has given approval to amending the current agreement between Canada and Newfoundland regarding financial assistance for Indians and Eskimos in Labrador as represented by an exchange of letters between us dated May 25, 1965 and June 2, 1965, to include provision of services to the community of Rigolet.

I therefore propose that this be accomplished by amending line 7 of clause (e) on page 3 of my letter to you dated May 25, 1965, to read as follows:

"the Nain, Makkovik, Hopedale, Rigolet and".

If this proposed amendment is acceptable to you I suggest that you sign one copy of this letter which is being provided in duplicate and return it to me for ratification. This will then constitute an amended agreement between our two governments in respect of financial assistance for your programs with Indians and Eskimos and will become operative in so far as provision of services to Rigolet is concerned on the same basis as similar services are provided in the Nain, Makkovik, Hopedale and Postville areas as of the date of ratification by His Excellency the Governor General.

That pursuant to section 8 of the Exchequer Court
Act as amended by section 23 of the Divorce Act, Ch. 24,

His Excellency the Governor General in Council,

of the Privy Council, approved by His Excellency the Governor
General on the 3rd April, 1968.

PRIVY COUNCIL

The Committee of the Privy Council have had
before them a report dated 27th March, 1968, from the
Minister of Transport, representing:

That 217 acres of land situated on Lulu Island,
in the Municipality of Richmond, being a portion of a 506
acre block of land acquired in 1936 from the Department
of Interior for use by the Department of Transport as a
Trans-Pacific Station, is surplus to departmental require-
ments and may be disposed of;

That The Corporation of the Township of Richmond,
British Columbia, has long been interested in acquiring the
land for recreational and park purposes but were unable to
pay market value for the land. The situation was brought
to the attention of Treasury Board by the Department on
May 20, 1965 and as a result, Treasury Board Minute No.
641936 of August 3, 1965 authorized the Department to enter
into a long-term leasing arrangement with the Township at a
nominal rental on the understanding that the land was to be
used solely for recreational and park purposes;

That in the process of negotiating the terms of
the lease, the Township suggested the possibility of an ex-
change of land whereby the Department would acquire 226 acres
of water-front land in exchange for the 217 acres of Crown
land;

That the 226 acres offered fronts on the South
Arm of the Fraser River in an area rapidly developing towards
industrial usage. Railway trackage is available and although
considerable fill is required, ultimately there will be
approximately 4000 feet of deep water frontage for development
into cargo wharves. The balance of the land will be suitable
for a cargo assembly area and other industrial uses;

That the Federal Department of Public Works need
sites to deposit dredgings from the Fraser River (at present
being hauled out to sea at considerable expense) and is
prepared to supply up to 150,000 cubic yards of dredged sand
after September 15, 1968. In addition, the Township of
Richmond is to be permitted to use the area as a sanitary
garbage dump and the garbage and the dredged sand will,
within a reasonably short time, provide the fill needed to
bring the land to the desired level;

- 2 -

That Real Estate officers of the Department of Transport have appraised the parcels as follows:

(a) Crown land - 217 acres @ \$1,200 per acre.....\$260,400

This value determined as if Crown land not subject to parkland zoning. (The fact that the present zoning does not permit any commercial use of the property seriously detracts)

(b) Richmond lands - 226 Acres being broken down as follows:

158 acres @ \$700 per acre..... 110,600

Lot "A" - 68 acres @ \$2,000 per acre..... 136,000

Total..... \$246,600

That the General Manager of the Real Estate Branch, Department of Transport, recommends an exchange on the basis of an even trade, the Department of Transport lands being zoned for park purposes having little commercial value as opposed to a very great potential value for The Corporation of the Township of Richmond lands once brought up to standards required for heavy industrial use.

The Committee, therefore, on the recommendation of the Minister of Transport, advise that Your Excellency may be pleased, pursuant to the Public Lands Grants Act, to authorize the issue of Letters Patent conveying to The Corporation of the Township of Richmond, in the Province of British Columbia, those lands more particularly described in Schedule "A" hereto and containing 217 acres, more or less, in exchange for a clear title in favour of Her Majesty in right of Canada to those lands more particularly described in Schedule "B" hereto, containing 226 acres, more or less,

such documents to be satisfactory to and to be obtained through the Deputy Minister of Justice.

Province of Ontario, shown as parts one and two on a plan
of survey registered in the Registry Office at Lindsay,

That Mrs. Spence is the owner of the adjoining
land and she inadvertently filled a portion of this property
which is drowned land assuming that she had title thereto.
Mrs. Spence proposes to use this property in connection with
her subdivision; and

That a valuation of \$100 has been placed thereon
by the Real Estate Branch of the Department, which has been
found acceptable to the applicant and is recommended as being
fair and reasonable by the General Manager of the Real Estate
Branch of the Department of Transport.

General on the 30th April, 1968

The Committee of the Privy Council have had
before them a report from the Minister of Transport,
the President of the Treasury Board and the Minister
of Finance, representing:

That subsection (2) of section 80 of the
Financial Administration Act provides that the appropriate
Minister for a corporation to which that section applies
shall annually lay before Parliament that corporation's
capital budget for its financial year approved by the
Governor in Council on the recommendation of the approp-
riate Minister, the President of the Treasury Board and
the Minister of Finance;

That Your Excellency in Council, by Order in
Council P.C. 1968-172 of 25th January, 1968, approved the
capital budget of Air Canada annexed thereto for the year
ending December 31, 1968; and

2 above does not correctly reflect the sources of finance
to be used by Air Canada during the 1968 financial year.

The Committee, therefore, on the recommendation of
the Minister of Transport, the President of the Treasury Board
and the Minister of Finance, pursuant to subsection (2) of
section 80 of the Financial Administration Act, advise that

capital budget annexed to Order in Council P.C. 1968-172 of
25th January, 1968, the capital budget annexed hereto which
budget shall be considered for all purposes to be the capital
budget of Air Canada for the year ending December 31, 1968.

PRIVY COUNCIL

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 30th day of APRIL, 1968

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it has been made to appear that

1. Churchill Falls (Labrador) Corporation is undertaking a very large investment to develop facilities at Churchill Falls in Labrador to produce very large amounts of electric power for sale to provincially-owned power corporations;
2. The said Corporation proposes to finance the construction of facilities to produce and transmit power in part by means of the sale of first mortgage bonds, of which an aggregate principal amount exceeding four hundred million Canadian dollars is expected to be sold in the United States in denominations of United States dollars;
3. The sale of an issue of bonds of this size might well be prevented by the imposition of a Canadian withholding tax on the interest payable on such bonds, since such a large issue must be sold to many institutions which would neither be exempt from tax nor able to offset it against taxes payable to the United States, or if it were not prevented, the rate of interest required to be paid by the Corporation would be significantly increased, in turn materially increasing the cost of power to the provincially-owned power corporations;
4. Interest paid on bonds issued by the provincially-owned power corporations is not subject to Canadian withholding tax, and the Government of Canada has long followed the policy, most recently expressed in the Public Utilities Income Tax Transfer Act, of effectively removing or reducing those federal taxes on investor-owned power corporations that materially affect their position vis a vis provincially-owned power corporations; and
5. The said issue of first mortgage bonds can be sold in the United States exempt from the Interest Equalization Tax of the United States.

AND WHEREAS the Governor in Council considers it to be in the public interest that the first mortgage bonds of the said Corporation may be sold in the United States exempt from withholding tax.

THEREFORE, His Excellency the Governor General in Council, on the recommendation of the Treasury Board,

pursuant to section 22 of the Financial Administration Act,
is pleased hereby to remit

- (a) the amount of any tax payable by a person under Part III of the Income Tax Act on, or such part of the amount of any tax that is or, but for this Order, would be payable by a person under that Part as may reasonably be regarded as attributable to, amounts paid or credited or deemed to have been paid or credited to that person as, on account or in lieu of payment of, or in satisfaction of, interest on first mortgage bonds issued by Churchill Falls (Labrador) Corporation Limited on or after the date of this Order,
 - (i) that are in denominations of United States dollars, and
 - (ii) that are identified in a manner prescribed by the Minister of Finance for the purposes of this Order as comprising, or as having been issued in exchange or substitution or partial exchange or substitution for bonds comprising, part of a series of first mortgage bonds issued or covenanted to be issued by Churchill Falls (Labrador) Corporation Limited whether in denominations of United States dollars or otherwise, the aggregate principal amount of which (expressed in terms of Canadian dollars) when added to the aggregate principal amount similarly so expressed of all first mortgage bonds previously issued or covenanted to be issued by Churchill Falls (Labrador) Corporation Limited whether in denominations of United States dollars or otherwise, does not exceed six hundred million dollars; and
- (b) any tax or penalty payable by a person under the Income Tax Act as a result of the failure of such person to deduct or withhold an amount as required by section 109 of that Act from any amount paid or credited or deemed to have been paid or credited by him as, on account or in lieu of payment of, or in satisfaction of, interest as described in paragraph (a).
